

What's better than a chance to **reunite** with your **family**? Whether it's **birthday's or holiday's or reunions or weddings...** There's nothing better than **reuniting with family!!!**

The Primary Goal of
Foster Care

is Family Reunification

Family Reunification Month

Did you know that **Adoption Option Inc.** does more than just **Adoption, Foster Care & Licensing?**

There are approximately **13,000** children in Michigan in Foster Care. However not all need to be adopted. Some are just in temporary Foster Care because there is another side of the system that you don't hear about. It is called Family Preservation. Family Preservation (and Reunification) are programs and services that help try and keep the biological family together. June is Family Reunification Month join us for our virtual event.

Join us on June 24, 2021 virtually to learn how we help families reunify each day. Each year in June our nation celebrates family reunification.

Join us in June to hear more about the ways we help families gain the skills that can permit their children return safely home.
